## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Keith in view of Nordlicht.

Keith discloses sending an order to an electronic market including sending an order on behalf of a trader (para 0175). The sending is performed when conditions are satisfied, the condition may be in the form of a look-up table (para 0201-0205).

Keith does not explicitly disclose:

automatic modification of order, sending the order or message, all from a first electronic market to a second electronic market; and,

monitoring external data and order modification are both done by the market.

Art Unit: 1762

Nordlicht discloses sending the order from a first electronic market to a second electronic market (para 0009-0010) and where the monitoring external data and order modification are both done by the market (para 0013).

It would have been obvious to one with ordinary skill in the art to include automatic modification of order, sending the order, or a message all from a first electronic market to a second electronic market because Nordlicht teaches conditions present that are required to modify and send orders (para 0012).

It would have been obvious to one with ordinary skill in the art to include the monitoring external data and order modification are both done by the market because Nordlicht teaches that conditions can be predetermined (para 0013).

### ***Response to Arguments***

3. Applicant's arguments filed 6-16-05 have been fully considered but they are not persuasive.

While Keith does not disclose the execution of one or more instructions, Nordlicht does disclose execution of one or more instructions (para 0009-0013). It would have been obvious to one with ordinary skill in the art to include include such to Keith because Nordlicht teaches different markets and modification of orders (para 0013).

The term "exchange market" as utilized in Nordlicht (para 0035) is understood as meaning that there is cross exchange traffic occurring.

***Conclusion***

**4. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
